

NHS EDISS Network Service Vendor (NSV) Registration Form

Network Service Vendor (NSV) connectivity with EDISS is a significant access privilege and an in-depth setup process that requires interested parties to complete multiple steps to achieve.

EDI Support Services (EDISS) requires all parties interested in becoming NSV's with EDISS to meet the following requirements:

1. Must conduct business with more than 25 customers whose electronic transactions will go through NHS/EDISS.
2. Established and purchased connectivity into the Verizon CMSNET Extranet VRF.
 - a. A signed copy of the Verizon Business Service agreement must be included with this registration form.
3. Established and purchased an additional VRF line through Verizon Business Services.
 - a. A signed copy of the Private IP Extranet Agreement with Verizon must be included with this registration form.

If all three of the above requirements have been met, email this completed form along with copies of the Verizon Business Service and Private IP Extranet agreements to nhsediss@noridian.com with the subject line "NSV Registration Request". Allow 24-48 hours for a response.

NOTE: Do not send this form if you are not able to provide the Verizon Business Service and Private IP Extranet agreements. The NHS EDISS NSV Registration form will be recycled if it does not meet all requirements.
